

HTTP Daemon Routine

```
graph LR; A[Flags which indicate places where the server should stop for debugging.] --> B[HTTP Daemon Routine];
```

The diagram consists of two rectangular boxes. The box on the left is white with a black border and contains the text 'HTTP Daemon Routine'. The box on the right is gray with a black border and contains the text 'Flags which indicate places where the server should stop for debugging.'. A black arrow points from the right box to the left box, indicating a relationship or flow from the flags to the routine.

Flags which indicate  
places where the server  
should stop for debugging.
