

int

```
graph BT; A[apr_bucket_refcount] -.-> B[int];
```

The diagram illustrates a pointer relationship. At the bottom, a gray rectangular box contains the text 'apr_bucket_refcount'. A dashed purple arrow points vertically upwards from this box to a white rectangular box at the top, which contains the text 'int'. The label 'refcount' is positioned to the right of the arrow, indicating the variable being pointed to.
