

A diagram illustrating a file path transformation. At the bottom is a white box containing the source file path: /usr/local/src/github /Codebase/httpd-2.4.29 /srclib/apr/shmem/unix/shm.c. A blue arrow points upwards from this box to a gray box above it. The gray box contains the transformed header file path: /usr/local/src/github /Codebase/httpd-2.4.29 /srclib/apr/include/arch /unix/apr\_arch\_shm.h.

/usr/local/src/github  
/Codebase/httpd-2.4.29  
/srclib/apr/include/arch  
/unix/apr\_arch\_shm.h

/usr/local/src/github  
/Codebase/httpd-2.4.29  
/srclib/apr/shmem/unix/shm.c
