

ssl_util_vhost_matches

```
graph LR; A[ssl_util_vhost_matches] --> B[strcasecmp]
```

A diagram showing a call from the function `ssl_util_vhost_matches` to the function `strcasecmp`. The first box, containing `ssl_util_vhost_matches`, is shaded gray and has a black border. A blue arrow points from the right side of this box to the left side of the second box. The second box, containing `strcasecmp`, is white and also has a black border.

strcasecmp
